

POWERPS SONIC

CONTINUOUS INNOVATION

with:

- **TRUSTED BATTERY SOLUTIONS**
- **PRECISION METAL FABRICATION**
- **CUSTOM INJECTION MOLDING**

ABOUT POWER SONIC

The Power-Sonic Corporation is an international group of companies, with manufacturing facilities and offices across the globe.

The Power-Sonic Corporation has three divisions:

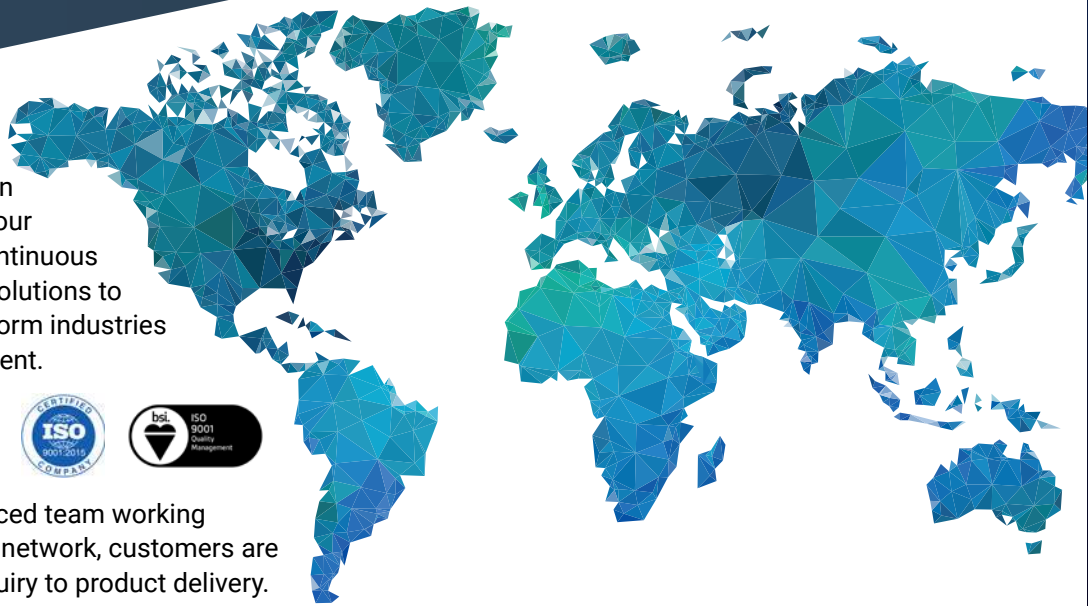

- TRUSTED BATTERY SOLUTIONS
- PRECISION METAL FABRICATION
- CUSTOM INJECTION MOLDING

Each of our companies have been operating for over 40 years, and our purpose is to go forward with continuous innovation of our products and solutions to support our customers, to transform industries and to help sustain the environment.

We are proud to hold ISO 9001 certification covering all aspects of our organisation.

With our dedicated and experienced team working alongside our global distribution network, customers are fully supported from time of enquiry to product delivery.

GROUP CUSTOMERS

All product and company names are trademarks™ or registered® trademarks of their respective holders. Use of them does not imply any affiliation with or endorsement by them.

TRUSTED BATTERY SOLUTIONS

Power Sonic has been delivering quality, reliable and innovative battery solutions worldwide since 1970. Our battery products are designed and manufactured using the latest state-of-the-art equipment and subject to the most stringent quality control. This process is key to ensuring both consistency and reliability of any product that carries the Power Sonic name.

Our comprehensive range of battery products include sealed lead acid (SLA) and lithium iron phosphate (LiFePO4) technologies, chargers and related accessories. As well as supplying a wide range of battery products we also provide cutting-edge UPS and energy storage solutions for smarter energy control.

BATTERY SOLUTIONS:

SEALED LEAD ACID

We offer a comprehensive range of SLA batteries, with each series specifically engineered to get the best out of your application.

LITHIUM IRON PHOSPHATE

Our LifePO4 batteries are the ideal solution to very demanding applications that require a light weight and higher capacity battery.

LITHIUM BLUETOOTH®

Combining proven lithium technology with an intelligent battery management system and Bluetooth® connectivity, gives you a battery that lasts longer and can be monitored with a smart phone or tablet.

POWERSPORT

A complete line of powersport batteries including lithium, AGM, AGM ready to go and conventional types to meet all your powersport needs.

CHARGERS

Our range of battery chargers have been engineered for efficiency and reliability. All our chargers meet worldwide safety standards.

UPS SOLUTIONS

Our extensive range of UPS systems have been designed and manufactured to deliver energy efficient and cost-effective power protection that eliminates disruptive and costly downtime. Our range includes line interactive, online and modular UPS.

BATTERY ENERGY STORAGE SYSTEMS

The Battery Energy Storage System (BESS) is a fully integrated, high performance energy storage solution for medium and high voltage grid connection. The BESS offers customers a diverse range of innovative energy storage solutions to maximize on-site clean, reliable power and energy savings.

We are constantly developing new products to set the pace within a rapidly changing industry. The continuous improvement of our engineering processes allows us to develop products with better value and superior performance.

PRECISION METAL FABRICATION

Concise LLC is a vertically integrated, technology-focused provider of high-quality precision metal parts. Our diverse technology and superior engineering capabilities serve a client base in a wide range of industries including medical equipment, transportation assemblies and construction equipment.

CAPABILITIES:

- 1000 HR Salt Fog
UL Certified Automated
Powder Coat Painting
- Fiber Optic Laser Cutting
- Automated Plasma / Punch
- AWS & CWB Welding Certified
- Turret Punching
- Coil Feed Progressive
Die Stamping
- Robotic & Manual Forming
- Tube Rolling & Bending
- Precision Machining
- Hardware Insertion
- Assembly & Testing

American Welding Society

CUSTOM INJECTION MOLDING

Power Sonic Injection Molding is an award-winning, full-service injection molder and contract manufacturer. Our multiple facilities in Mexico consist of over 260,000 square feet of manufacturing, warehousing, and distribution areas.

CAPABILITIES:

ENGINEERING

- Scientific Molding Process
- Tools Design
- Mold Flow Analysis
- Full PPAP

VALUE ADDED SERVICE

- Insert Molding
- Part Assembly
- Part Decorating
- Ultra Sonic Welding
- Pad Printing
- Heat Staking
- Laser Printing

We specialize in a full spectrum of services including custom injection molding of a wide range of engineering and commodity grade resins with extensive secondary processing and assembly capabilities. These include laser printing, pad printing, ultrasonic welding, heat staking, assembly and customized packaging ready for your assembly lines.

TOOL MANAGEMENT

- Cold Runner
- Hot Runner
- Valve Gate
- Family Molds
- Insert Molds
- Multiple Cavities
- In House Mold Repair

Today we supply a wide range of molded products, many of which are custom manufactured to fulfil the most exacting OEM standards.
